

Defoamers: FB S-40

Defoamer for Water-Based Applications

FB S-40 is a highly effective, concentrated, modified organo-silicone defoamer.

Benefits: It has excellent water dilution stability and is extremely effective on surfactant-based foams.

Recommended Usage Levels: Use 0.05 to 1.0% based on total formula weight.

Typical Properties:

| | |
|-------------------------|--------------------------------------|
| Appearance | Translucent Liquid |
| Viscosity (CPS) | 2000 |
| Weight per Gallon (lbs) | 8.21 |
| Specific Gravity | 0.985 |
| NV by Weight | 61.0% |
| NV by Volume | N/A |
| VoC by Volume | N/A |
| Shelf Life | 1 Year |
| Storage Precaution | Store at room temperature above 40°F |
