

## Fixers: FX 2

### Fixative For Water-Based Applications

**FX 2** is used to reduce or eliminate film defects such as craters, crawling and fish eyes. It also provides uniform films on difficult to wet or contaminated substrates.

**Benefits:** Fixers are specifically formulated to be highly effective at low levels without adversely effecting inter-coat adhesion.

**Applications:** FX 2 is an extremely effective surface control agent for high solids aqueous systems.

#### Typical Properties:

Percentage Solids	78%
Weight Per Gallon (lbs)	9.00
Viscosity (Gardner-Holdt)	C-G
FDA Cleared	Yes
Suggested Use Level	0.1%-0.8%
VoC lbs per Gallon (GR/L)	0.59/70
