

## Fixers: FX 3

For Water & Solvent-Based Applications

**FX 3** is used to reduce or eliminate film defects such as craters, crawling and fish eyes. It also provides uniform films on difficult to wet or contaminated substrates.

**Benefits:** Fixers are specifically formulated to be highly effective at low levels without adversely effecting inter-coat adhesion.

**Applications:** FX 3 is an extremely effective surface control agent for aqueous 2K, epoxy and alkyd systems.

### Typical Properties:

Percentage Solids	50%
Weight Per Gallon (lbs)	8.44
Viscosity (Gardner-Holdt)	A3
FDA Cleared	Yes
Suggested Use Level	0.2%-1.0%
VoC lbs per Gallon (GR/L)	3.30/395
