

# SUPERSPERSE® AD

Grinding Vehicle for Solvent-Based Applications

**SUPERSPERSE® AD** is a specifically formulated pigment grinding vehicle which produces colorants with a broad range of compatibility.

**Benefits:** SUPERSPERSE® AD exhibits excellent wetting characteristics and allows pigment concentrates to be manufactured with low viscosity and stable high pigment loads.

**Applications:** Pigment dispersions based upon SUPERSPERSE® AD are compatible with the following systems:

- Oil Modified Polyurethanes
- Short Oil Alkyds
- Medium Oil Alkyds
- Long Oil Alkyds
- Alkyd Copolymers
- Chain Stopped Alkyds
- Nitrocellulose

SUPERSPERSE® AD can be diluted with aliphatics, aromatics, esters and ketones.

## Typical Properties:

Percentage Active Solids	70%
Vehicle	Modified Alkyd
Solvent	Mineral Spirits
Weight per Gallon (lbs)	7.94
Flash Point F/C	104/40
