

Castor Polyols: T 95 OIL

TDI Reacted Castor Oil

T 95 OIL is a highly refined and fully reacted (TDI) castor polymer featuring light color, broad compatibility, high gloss and durability.

Applications:

- Plasticizer (for resins, gums and polymers)
- Adhesion Promoter
- Surface Wetting Agent
- Lubricity Agent
- Penetrant
- Pigment Dispersant
- Dye Dispersant
- Coupling Solvent

Typical Properties:

Color (Gardner)	3
Acid Value	2
Viscosity (CPS)	12,500
Specific Gravity	0.99
Iodine Value	82
Equivalent Weight	550
Hydroxyl Value	102
Saponification Value	166
Pour Pont (°F)	15
